

Q&A RFB # BALTCORPAV

- 1) Smart Board (Samsung) – The Samsung interactive display does not have a video output. To accommodate sending this into the system, can we substitute for a different product.

ANSWER: Substitutions can be made. If you elect to make a substitution please include a brief reason for the substitution so the review committee understands your reasoning.

- 2) Electronic Meeting Announcement Plate - Electronic Meeting Announcement Plate

Answer: Yes

- 3) Electronic Window Blinds – what is the make / model of the automated blinds system?

Answer: We are requesting this but we do not currently have electronic window blinds in the space so we do not have a specified make/model.

- 4) Is room lighting control a requested as well? If so, what is the make/model of the lighting system?

Answer: Yes but we do not have a specified make/model.

- 5) In Table Connections/Plug-Ins with Retractable Cord Feature - Are the pop-up table boxes to be provided by the AV vendor (Offeror) or will these be provided by the furniture vendor?

Answer: Assume they will be provided by AV vendor.

- 6) AV pop-up boxes are reference under mandatory requirements, how many should each of the rooms have?

Answer: Final table arrangement has not been selected / determined at this time. Table is expected to seat 20-24 people and there should be an AV box every 4 – 6' of table. There will also need to be an extra box at the head of the table in addition to whatever hook-ups are required for the control screen.

- 7) Presentation – 4K Laser Projector and 3 Side TVs - Please clarify desired display quantity, type, location within room, and source.

Answer: They are requesting one large projection screen and 3 TV's to provide either supplementary viewing or to have remote attendees on the TV's while the presentation is on the screen. Assume 2 TV's to the sides of the screen and a secondary TV located elsewhere in the room. The exact locations have not yet been determined. Recommendations to proper placement are encouraged during this process.

- 8) Are there any requirements or limitations for display and projection sizes? does projection screen need to be recessed in ceiling or fixed?

Answer: Assume 65" for the three TV's and a recessed screen

- 9) Since ceiling microphones are being requested for both conference rooms, could reflected ceiling drawings be made available before bid date? at minimum we would need to know the ceiling mounting surface and ceiling height.

Answer: The space is not currently final and we do not have ceiling drawings. For purposes of this proposal assume height is 10 foot and material will be drop ceiling.

- 10) Would 1Beyond multicamera tracking also be required for the smaller conference room?

Answer: The smaller conference room is expected to be primarily for in office meetings. We would only need a single camera in this space that captures a stationary shot of the room as a whole.

- 11) How many assisted listening receivers are needed for each room or the project as a whole?

Answer: Assume 6 receivers for the entire project.

- 12) Would each of the rooms need to have their own rack? Please specify potential rack locations and form factors that could work in the space, ie. floor standing, credenza, rolling, slide out, or in-cabinet.

Answer: We will provide an equipment rack for the small conference room. The large conference room will require a credenza that would fit all necessary equipment for the AV set-up as well as additional storage for items needed in the room. (Food service, supply storage etc...)
